

THE HICKMAN COURIER.

HICKMAN, KY.
FRIDAY, 11th FEB. 1893.

The struggle of Kentucky has been a long one, and the law requiring a bond of \$500 for a license to sell whisky, is a case in point.

Another case has gained another point—this time in the ratio, where the new governor has appointed a woman to membership in the state board of agriculture.

A bill, has been introduced in the Missouri legislature providing that persons found guilty of drunkenness for the third time be sent to the insane asylum for treatment with the Keeley cure.

The law imposing a tax on vendors of patent rights in this state is unconstitutional, according to the federal patent law. Those who collect such taxes are liable to suit for patent rights in the state, and this money will have to be refunded.

The Danahoe Visitor very truthfully says: "There is a great deal of talk in this state about the evils of whisky, but the state is not doing anything to stop it, and it is a remedy for everything under the sun that does wrong. No greater mistake was ever made than to legislate people into temperance, virtue and happiness as it is to legislate up hill."

The assessed valuation of property in Tennessee for this year is \$18,000,000 less than for 1902. This leads an exchange to remark: "If Kentucky property decreases in value in 1903, it will be a great deal more than that of Tennessee."

The state of Tennessee is in a hole again. The state treasury is empty, and the state is in a hole again. The state treasury is empty, and the state is in a hole again.

Hon. John D. Carroll, Chairman of the State Central Committee, has issued a call for a meeting of both the Democratic State Central and State Executive Committees to be held at the headquarters of the Western Club in Louisville, on Wednesday, February 15th.

The Frankfort Capital and says the purpose of the meetings are understood to be not only the filling of vacancies in the legislature, but the question of calling a convention or conventions for the consolidation of State officers of the Democratic Party.

The Williamson County Courthouse John L. Carline for the President. But it is not the only one of its kind in the state. It is a very fine building, and it is a very fine building.

It makes one's stomach water to think of the ornamental elegance we are to have this year. The campaign for Governor and Legislature is going to be a very fine one.

The campaign for Governor and Legislature is going to be a very fine one. The campaign for Governor and Legislature is going to be a very fine one.

In his speech before a Democratic club at New York a few days ago Senator Hill said: "The fact cannot be denied that the political issue is being fought on a very high level."

The fact cannot be denied that the political issue is being fought on a very high level. The fact cannot be denied that the political issue is being fought on a very high level.

The fact cannot be denied that the political issue is being fought on a very high level. The fact cannot be denied that the political issue is being fought on a very high level.

The fact cannot be denied that the political issue is being fought on a very high level. The fact cannot be denied that the political issue is being fought on a very high level.

Lindsay on the Currency.

Honest men, says the Frankfort Capital, even if they opposed the decision of Judge Wm. Lindsay as a United States Senator, can but admire his course since he was elected to that exalted position. He has been right on every question that has come up, and hence the way he whisks into line on the currency issue.

It is said that something must be done to solve the problem. We are not a nation of big game hunters, and we are not a nation of big game hunters.

The fact is that something must be done to solve the problem. We are not a nation of big game hunters, and we are not a nation of big game hunters.

Dawn of a New Day.

The Baltimore Manufacturers' Record, in a recent issue, contains the following article on the industrial and commercial future of the South:

"The South is entering upon the most active and enterprising period in its history. The South is entering upon the most active and enterprising period in its history.

The South is entering upon the most active and enterprising period in its history. The South is entering upon the most active and enterprising period in its history.

The South is entering upon the most active and enterprising period in its history. The South is entering upon the most active and enterprising period in its history.

The South is entering upon the most active and enterprising period in its history. The South is entering upon the most active and enterprising period in its history.

The South is entering upon the most active and enterprising period in its history. The South is entering upon the most active and enterprising period in its history.

The South is entering upon the most active and enterprising period in its history. The South is entering upon the most active and enterprising period in its history.

Levee Building.

Representative Moore, of Mississippi county, Mo., has introduced a bill in the Legislature of that state appropriating \$50,000 for a topographical survey of the banks and of crevasses of the Mississippi river in that state.

The object of the survey is merely to point out the best methods of drainage and constructing levees. The people living along the Mississippi river in that state are now engaged in building levees at their own expense to prevent overflows, and when this is accomplished a large per cent of the land can be reclaimed and rendered serviceable for agricultural purposes.

The bill is merely to the attention of the people on this side of the river to the fact that our Missouri neighbors have gone to work to protect themselves from the ravages of high water, and are waiting and expecting somebody else to come along and build their levees for them.

The bill is merely to the attention of the people on this side of the river to the fact that our Missouri neighbors have gone to work to protect themselves from the ravages of high water, and are waiting and expecting somebody else to come along and build their levees for them.

The Next Senator.

While the election of a United States Senator in accord with the Blackbirds does not occur for a year there is a great deal of speculation being indulged in about the result of the election.

Already there are four avowed candidates in the field, and it is not at all certain that the race is made. Senator Blackbird is a very able man, and he is a very able man.

Senator Blackbird is a very able man, and he is a very able man. Senator Blackbird is a very able man, and he is a very able man.

Senator Blackbird is a very able man, and he is a very able man. Senator Blackbird is a very able man, and he is a very able man.
